Here's what some of our customers are saying about our CSA program:

“What I like most about the veggie boxes is that me and my brother get to open it every week and see what's inside.” - Yousef, age 6

“What I like most about the CSA is the freshness of the vegetables and the nice variety we found throughout the summer. We also enjoyed the fresh mushrooms and dried products - such a treat to have these grown in Yarmouth County.” - Renee

“My favorite part of getting my produce basket? Let me count the ways! First, it was so convenient. I never once stopped to get produce anywhere else. We haven't bought turnips, carrots, parsnips, onions and squash at a store since May. Secondly, we ate more vegetables as we tried different recipes to use the produce. We pickled beets, bottled spaghetti sauce, and even blanched and froze carrots. Thirdly, it was fun! - Charlene

Riverview Produce Farms Food Basket - CSA

Thanks for showing an interest in our 2017 CSA (Community Supported Agriculture) food basket program.

We are Riverview Produce Farms, owned by Doug and Evelyn Hurlbert in Canaan, Yarmouth county. We have 50 years of market garden and farming experience and are well known in the Yarmouth community for good quality vegetables and soft fruits.

Riverview Produce Farms is committed to providing you with produce that is not genetically modified and is grown locally using conventional farming methods.

Riverview Produce Farms has been supplying vegetables and soft fruits as part of a small informal co-operative formed in 2011. We will continue to work with other market gardeners that grow vegetables with the same philosophy in our community. During the season you will receive vegetables from Green Thumbs Farm, St. Isidore Farm, BullyGoth Farm, and others.

This year we are offering the Seasonal Family Share. This is just right for a family of two to three people. If your family is larger or if you just like a lot of vegetables, you can double or triple the shares you wish to receive each week. If you have any other special needs or requests, please let us know.

Each week, the Seasonal Family Share delivers delicious fresh vegetables, harvested at their best, for you and your family to enjoy! Please see the full list of what you can expect during the season on the following page.

This year we are also including a weekly email explaining what is in your CSA share that week with recipes, hints, tips, and tricks related to gardening, cooking, natural living, etc. as well as other related announcements!

We hope that you will show your continued support for fresh, healthy, locally grown produce with us this year!

Cheers,

Evelyn and Doug Hurlbert
